Current Concepts in Critical Care
30th November and 1st December 2017

**Limited places available, secure your place now!**

*Current Concepts in Critical Care* is an intensive two day course designed for the advanced trainee in Intensive Care, Emergency Medicine or Anaesthesia. With limited numbers and small group advanced learning, this course provides an in-depth, practical look at the management of common, real critical care issues.

The material will provide an excellent primer for those doing fellowship examinations, or can simply be an advanced refresher for the practising clinician. The format is one of detailed, small, interactive clinical case study discussion groups facilitated by both an intensivist and subspecialist from the relevant specialty.

**Workshops covered include:**

- Haematology
- Burns
- Neurocritical Care
- Infections and Microbiology in Critical Care
- Renal and Metabolic
- Trauma
- Transfusion
- Acute Cardiology

**Location:** Royal Brisbane and Women's Hospital
Butterfield Street, Herston QLD

**Date:** Thursday 30th November and Friday 1st December 2017

**Cost:** $495 inc. GST
